

## SIRS Navigation Warranty Policy

SIRS Navigation Ltd are committed to delivering the highest quality, conforming products to its Customers. Our products are covered by a comprehensive warranty policy.

SIRS' products are warranted to be fully compliant with the test specification, free from defect in material and workmanship. The warranty period offered by SIRS is 36 months from the date of manufacture.

The warranty extends only from the original manufacturer with the original proof of purchased, or when purchased from an authorised distributor or agent.

During the warranty period, SIRS Navigation Ltd will replace, at no charge, products or spare components that are proven defective because of improper manufacture, under normal use and maintenance.

Under normal circumstances, once you have notified SIRS of your issue, SIRS Navigation will send a free of charge replacement product or part and the original should be scrapped at your facility, further information is available in Figure 1.0.

The limited warranty cover does not include any problems that are caused by conditions, malfunctions or damage not resulting from defects in material, manufacture or product conformance to the approved design data.

To obtain warranty service, you must first contact us to determine the problem and the most appropriate solution for you.
